### EXPERIENCE

April 2015 – Present

#### Application Developer, BESTNET WORLDWIDE, INC.

- ✓ Develop customer and sales portals in a small-team Agile environment, using .NET, C#, Jira, Git, SQL Server, JavaScript and jQuery
- ✓ Coding RESTful API methods and refactor existing code to consume those services
- ✓ Develop .NET Core projects involving automated spreadsheets, parsing, and API data transfer
- ✓ Rewrote, updated, and documented automated scripts on our various servers, porting to PowerShell from KSH, BASH, Perl, and Microsoft batch files

December 2014 – April 2015

#### Intern Developer, BESTNET WORLDWIDE, INC.

- ✓ Developed ASP.NET Dynamic Data web app for call log data management
- ✓ Led development of SQL proc library for accurate call log analysis, reports generation, and maintenance
- ✓ Promoted to full-time Application Developer when my internship was completed

### EDUCATION

B.A. in Computer Science, Mathematics minor

NORTHERN MICHIGAN UNIVERSITY, Marquette, MI
